THE STANWIX HALL TRACEDY.

The Trial of Louis Baker for the Homicide of William Poole-Conclusion of the Testi-mony on Both Sides-Summing Up of Counsel for the Defence.

TWEIFIH DAY. Hen. Judge Roosevelt presiding. THE PROPIE VS. LOUIS BAKES.

DEC. 10.—Growds sgain thronged the passages leading to the court room, which was itself filled to its utmost

at Lafayette Hall the night they had the difficulty at Platt's: I think a man named Young was there, and some others, and the proprietors of the place; a Mr. Jones was

liso there.

Q. State what took place between them.
Mr. Whiting objected. (Objection sustained.)
Q. Who was in the company of Baker and Turner?
A. There were three of them altogether; I should think here were not more than eight or ten people there at the ime: Hyer was there for some hours; I think we all came ut together; the landord has ing put out the lights, I rent home; Hyer was crunk; he had been drinking all he evening; he was drunk when I first saw him; they ad been wangling two or three hours.

Q. Buring that time, did you see Baker go and light is segar?

had been wanging two or three hours.

Q. During that time, did you see Baker go and light his segar?

Mr. Whiting objected to going into the merits of that affair—it was not the matter at issue.

Mr. Bredy contraded that it bore upon Hyer's statement, that he did not push Eaker when Baker was in the act of lighting his regar.

The Court satained the objection.

Cross-examined by Mr. Whiting—I think I went out a little ahead of Baker; I came down Breadway; I stopped at Platt's on my way down; Byer oit not come out before me; it appeared as if we all came out together; when I got out to the street they were behind me; I went down Broadway with two men; neither of them came in while I was there; I don't recollect that either of them came in while I was there; I then went home; I think I did not see Hyer, Baker or Turner afte I came out of Lafayette Hall that night; that is my best recollection.

George W. Harpel recalled—I recollect Hyer and Baker meeting in my barroom; it was about a year ago.

Mr. Whiting desired to know what the decace was going to pove by this witness? There were collaterals eaugh already is the case.

Mr. Clark preposed to show that Hyer struck Baker in the witness's bar room. The Court excluded the testimup as intelevant.

Charles Least recalled—I could not tell when I was on

ne winess a car room. The Court excluded the testiairy as the 'elevant.

Charles Loustr recalled—I could not tell when I was on
as stand before where I was shot in the leg. I was so
citied. It earne in there (above the knee), and came
at here (he ham.)

To Mr. Whiting—I was never on the stand before; that
as the reason I was excited, I was shot in the leg before
was shot in the head.

To Mr. Brady—I was not at the Coroner's investigaon, because I was sich at the time.

Q. Was it a builet or a slog that wounded you? A. It
as a builet.

tion because I was sick at the time.

Q. Was it a builet or a slog that wounded you? A. It was a builet.

Mr. Justice Brennan recalled, and examined by Mr. Brady. (The depositions of Mr. Dean produced). Witness—That is my name signed to the jurat.

Q. Mr. Dean swore to that before you? A. Yes, sir.

Q. In waose handwriting? A. The deposition is in the hundwriting of Chancellor, a former clerk; most of the witnesses were sworn before they signed them; it must have been Mr. Chancellor of Mr. Murray that took them, and the writing is not like Mr. Murray's.

Cross-scamined—As the witnesses were brought in they were sworn by me and went before the Clerk, who look their depositions; when they were taken they were rought to me and the jurat affixes.

To Mr. Clark—Cy Shay was there in the evening. Q. Was he busy? (U) jected to.)

The Plattiet Attorney said that an experiment had been made in the second, in the presence of Mr. Whiting and another gentleman.

The Court—On a similar kind of a coat?

The District Attorney—The same kind of lining. He had sen! for the skind if the summing up could not be pro-

of for.

Its Floyd recalled—By Mr. Whiting—Q. Have you at ton which some experiments have been tried?

A. s, sir, two of them.

Mr. Clark objected—He thought the testimony on the rt of the presecution was all closed.

The Court said that according to his understanding the stimony is admissible.

witness produces a coal periora of with several pistol salls.

Q. Was this coat fired through where the cotton lining s? A. It was, sir.

Q. Was that coat fired at from the cutside, and at what distance? A. Yes sir, at three inches; it was fired rom the outside, and fired the lining on the insite of the out; the hole at four inches bred the lines slightly; the neat six inches was fired, and bursed the lining on the uside, the muzzle was placed against the cloth outside, he hall went through and set fire to the lining insite; we fired through shother coat (produced) from the indee, placing the pistol close to the lining; it burned the ming invice in two places, by the cap and the powder, and made a hole on the outside cloth.

To Mr. Brany—The experiments were made at Burn & lack's shooting gallery, under the st. Nicholas; I was resent at the firing at one of them.

present at the firing at one o' them.

Q. Was there any one present on the part of the defence 'A. No, st.'

A. Not that I know; the experiment was tried with a Colt revolver, came as the one produced in Court.

Loring M. Black dep sed—I was present at the firing of the coas; I loaded the pistule tree tirest firing. Mr. Black londed at the second firing; the patol was loaded with double charges, as such pistule study are.

Mr. Brany—I desire to say a few words in reference to the final deposition to be made of this case, os far as the counsel on both sides are concerned. We wish the prosecution to state, before any samming up begins, any particular principles of criminal law which they suppose have especial appli ation to this case. As to the general doctrines of the law of homeide we will assume them; but if they mean to claim, in presenting their case to the jury, that there is any particular and especial rule which has a more direct an effective application to this case than any of those general principles which are always invoked in the discussion of cases of this character, it would be fair for them to minus them. You can see plainly, from what has tampired in the current of the case, that there is a manager of the case, that there is a manager and the seed that there is a manager of the case, the there is a manager of the case, the thore is a manager of the case, the thore is a manager of the case, the thore is a manager of the case, it would not be fair to the jury in the content of the case, it would not be unreasonable to have a schedule of the case, it would not be fair to the jury (and parager not to your Honor,) to claim or request that any more counsel than one should alone to a law of the case of the case and the content of the case is an intention to the case fair would not be right towards the jury. I have entered

the state of the count of the part of we post of an industry.

SEDUCTION AND STABBING IN ST. LOUIS.—Yester day evening, a man camed Jeremiah Konklin, who resides at It? Fourth street, near Morgan, was carried to the office of the Board of Health, with a severe wound in the neck given, as he says, with a raile, by a woman name: Eliza Murphy. The origin of the affair, as detailed to us by Konklin, was as follows:—Some months since he was living in New York city with his wife and family, when an intimacy grew up between thin self and the Murphy, which resulted in her bearing the premonitory symptoms of maternity. Se some as this fact was apparent he restored with his family to this city, where he has restored ever since. By some means the frail sister choovered his place of recreat, and tollowed him here, where she arrived yesterday. On meeting with him, she claimed that he should make privision for her support which he refused, and she then attempted to take his life by cutting his throat with a kelfe. The woman, being within a few hours of her confiner out, and in a destitute condition, was sent to the City Hospital.—St. Louis Intelligencer, Dec. 7.

That Elopement Care Not 50 Bad as Reponence.

THAT ELOPMENT CASE NOT SO BAD AS REPORTED.—We stated on Wednesday, says the Proy Traceller that a woman recently arrived at Chicago, from Kansas; with the dead body of her hurband, which she was taking East for burial. And that on the route she fell in with a young man, and on their arrival at Chicago, they went off tegether, leaving the dead body of the busband in the depot. But it seems that the latter part of the statement was erroneous, for the woman forwarded the dead best was erroneous, for the woman forwarded the dead best was erroneous, for the woman forwarded the dead best of the deceased husband on Monday, and the turneral of the deceased husband was held at Waterford on Fueday inst.

THE HIGTS OF FOURTH OF JULY, 1853.

The People ve. Chai two and others.—The defendants were
found guilty, in the Court of Sessions, of a riot on the 4th
or July, 1852, arising out of a difficulty which necurred
between an Irish and an American party. The decidion
of the Supreme Court is that the Court of Sessions erred
in tefosing to compel the juror Black to answer the questien, whether he had any prejudic or bias against Soman Catholics. The question should have been permitted.
The question to the wirness west, "worther he belonged
to the Order of United Americans," abould have been permitted by the Court, for had it been aboun by the witness that he did, and that such Order was established
with prejudice against, and to oppose, Irish and Roman
Catholics, such lack was proper for the jury to receive to
mobile them to determine how much, if any, the witness that he did, and that such Order was established
with prejudice against, and to oppose, Irish and Roman
Catholics, such lack was proper for the jury to receive to
mobile them to determine how much, if any, the witness that he did. The court is passed in the Market
